2021

Jason McIntosh

Hello –

It is my hope that my participation as a Board member will benefit the community in several ways.

First, my career in multifamily residential development, which has spanned 20+ years thus far, has given me a great deal of experience in all aspects of community development and management. From the initial aspects of concept design and budgeting to extensive hands on experience in multiple building trades to the final aspect of project completion and approval, I have overseen professional development projects well in excess of \$200M.

Second, I am an active resident in our community with my wife and our two daughters. We are constantly out and about in our neighborhood either biking or walking about. This provides me the opportunity to consistently see and be aware of what is happening in our neighborhood, and what may be needed in terms of improvement.

This does not mean I want or intend to “police” our neighbors. Far from it. My hope is that my experienced eye may see needs early so that the annual budget may be planned accordingly, and expenses may be mitigated with a proactive approach.

Lastly, I have a very mild manner and professional approach from many years of business development. I believe I can be a voice of mediation when opposing views are brought forth to the Board.

Thank you very much.

Reed Jolley

My wife and I moved to More Mesa Shores in 1995 with our three children. We have loved living here ever since. Twenty-five years later, our children are married, have children of their own and live outside of Santa Barbara. I would be happy to serve our community as a Board member helping to preserve the wonderful environment of the neighborhood we all enjoy.
